Beard's (Charles A.) *American government and politics*, 205
BISHOP, J. REMSEN.—The poor results in Latin teaching, 489
BLAYNEY, THOMAS LINDSEY.—The modern languages as cultural college disciplines, 478
Books, Mr. Repeater, come to, 95
BRICKER, G. A.—Agriculture in the public schools, 395
Brunot's (Ferdinand) *L'Enseignement de la langue française*, 519
Bureau of Education, Debate in the House of Representatives on the appropriations for, 170
Butcher (Professor S. H.), 280
BUTLER, NICHOLAS MURRAY.—The revolt of the unfit, 109; University administration in the United States, 325
Can virtue be taught? 261
CARPENTER, WM. H.—*Report of the Carnegie Foundation for the Advancement of Teaching*, 421
Children, Differences among, 106
Classes, Size of, 418
Classics, The training of the teacher of, in Germany, 449
College and the school, The duty of, to the public, 93
College course, History in, 217; Psychology in, 499
College curriculum, The interest of the public in, 60
College disciplines (cultural), The modern languages as, 478
College point of view of physics, 82
College president, What it is to be, 412
College student's view of educational methods, 404
Collegiate grade, The training of teachers of mathematics in professional schools of, 382
Come to books, Mr. Repeater! 95
Commissioner of Education's report, 215
Company, and required reading, 510
Consequences (political) of the feminization of our schools, 441
Constitutes a scholar? What, 535
Course (college) in history, 217; in psychology, 499
Course of study (New) in Yale College, 371
Courses, Differentiation of, in the seventh and eighth grades, 127
Cultivation in school of reading for thought, 71
Cultural element and economy of time in education, 416
Cultural college disciplines, The modern languages as, 478
Current educational publications, 90, 193, 303, 413, 507
Curriculum (college), The interest of the public in, 60

DANTON, GEORGE HENRY.—Required reading and company, 510

119461

NOV 18 1912

Davisson's (Schuyler C.) *College algebra*, 525
DAY, CLIVE.—A new course of study in Yale College, 371
Debate in the House of Representatives on the appropriations for the Bureau of Education, 170
Defects (Some) in our public school system, 238
Degree of Master of Arts, 161
Degrees, and poultry distinction, 108
Department of Education, The proposed, 322
Disciplines (cultural college), The modern languages as, 478
Discussions, 93, 196, 306, 416, 510
Differences among children, 106
Differentiation of courses in the seventh and eighth grades, 127
Duty of the college and the school to the public, 93

Economic measure of school efficiency, 467
Economy of time in education, and the cultural element, 416
Education, and sex, 42; according to Tolstoy, 433; Economy of time in, and the cultural element, 416; The proposed Department of, 322
Educational methods, A college student's view of, 404
Educational system of France, 245
Efficiency (school), An economic measure of, 467
Eighth, and seventh, grades, Differentiation in, of courses, 127
Element (Cultural) and economy of time in education, 416
Elson (William H.) and Short's (Robert L.) *Secondary school mathematics*, 527
Energy (radiant), Sir J. J. Thomson on, 538
English and the foreign languages, 306
Evils (The) of over-teaching, 232

FELTER, WILLIAM L.—The size of classes, 418
Feminization (The) of our schools and its political consequences, 441
Foreign languages, and English, 306
Foxfielders (The) at school, 1
France, The educational system of, 245
Frankfort, The new university at, 536
Frankfurt-am-Main, Self-government in, in the Musterschule, 196
